

Parent's Interviews

- Parent: When we first came to this school, the boys settled ... All the children settled in straight away. They just love the school. We was really impressed.
- Parent: The teachers are actually really caring. They genuinely care about the children, and they take an interest in them, plus the classes are smaller than the average school. They have that time to get to know each child individually and spend that time with them.
- Parent: It's really important to me that they memorise scripture. I think that that's really good for kids. It just amazes me how much they can grasp of it.
- Parent: I really do like the fact that they value each child here. My kids are loved just because of who they are. That is important to me that they know who my children are.
- Parent: They've made nice friends. They feel good about the teachers. They've even told me that the teachers are friendly, so, yeah, they're happy to be here.
- Parent: The education has just come on leaps and bounds since they've been coming to this school. With the work, they get all the help they need. If there's something they don't understand, they can approach the teacher. They want to come to school. They're just so much happier.
- Parent: I love the mums that I've met. I love the families that we're connected too now because family and friends are important to me, so we've found some really lovely people here.
- Parent: My kids would say that it's the sports because they're all very keen on sports, so they love the before and after school sports thing. I also know it's the teachers. The teachers because they're friendly and make the kids feel welcomed. That's one of the things that I really like. A couple of the kids would say it's the technology. They just love working on the laptops and all the technical stuff. Yeah, so it's a lot of things.
- Parent: There's no bullying. Bullying isn't stood for, so that's excellent. The way they interact with each other at school is really, really lovely. It's very respectful. It's very kind.
- Parent: Just the support that I've found as a parent, meeting other parents. I came to this school with not much of a social life going on because I've had little kids, obviously, and just finding those other mums in the same situation and catching up with them for coffee, and now we do it all the time.
- Parent: It's a safe environment. Yeah. The kids, if there's even a slightest bit of nastiness, it's dealt with straight away, so the kids feel safe and so happy. Yeah.
- Parent: It is an authentic faith that the kids are taught here, that Jesus can be a part of their life every day, and He wants to be a part of their life every day. This is how we do it.

Parent: Oh, I'd say, "Go for it. Bring your kids along. They'll love it. They will. Yeah. It's a happy place. They'll make nice friends here. Yeah. They'll enjoy it."

Parent: Here it's just like a family. It's just like your own little family. When you come to BBQ's and they have BBQ's, it's just ... I just love it. I just love this school.
